# TYPICAL Failover Solution

**This the way it's done TODAY (& in the PAST…)**

- Single LTE Tower

- NO Software Defined Network intelligence

- Single LTE Cellular provider

- Limited dynamic routing or CoS, VLAN configuration policies

#HyperCONNECTED Failover Solution

FUTURE way it'll BE done by JackBaum Group

- Multiple LTE Towers

- Software Defined Network intelligence

- Multiple LTE Cellular providers

- AGGREGATE the bandwidth! (A + B + C) = FASTER & MORE RELIABLE!

THE
JACKBAUM GROUP

CARRIER C
4G LTE

CARRIER A
4G LTE

CARRIER B
4G LTE

Designed for MAXimum bandwidth, flexibility, & BCDR
A TRUE "ALL Terrestrial/Wires/FIBER IS DOWN or CUT" Solution
